

Efforts to launch a fully certified Teen Challenge work are under way in Tel Aviv. Working among Russian Jews of the inner city, where heroin addiction is rampant, they see the need for a Teen Challenge work in the city.

Traveling with Mike and Tim Zello, we had wonderful opportunities to minister in the churches and on the street. We saw God's hand move mightily. One of the highlights was the opportunity to minister to and feed the homeless at the Holocaust Shrine in Tel Aviv.

One Russian Jew, a physicist who had been unemployed for 2 years told me, "I returned to Israel, feeling drawn, but not knowing what I was searching for until now... when you have shown

Greetings from ISRAEL

April - May 2004

Tel Aviv, Haifa

to me Jeshua, Messiah." The street meetings and Shabbat services in Jerusalem and Haifa were powerful.

Please believe with us for a pow-

erful move among God's people in Tel Aviv. The preliminary steering committee has been set up with Holy Land Ministries and they are looking at property for a "Believers' Kibbutz" in the desert outside the city.

We are believing God for the desert to bloom again through Teen Challenge and the Love of Jesus Christ. New staff reported to Portugal for training this summer and a woman who received Christ while we were there is coming into the Long Island Teen Challenge program..

Our partner ministry in Haifa, Bietzanidahosa (House of Victory) continues to battle recent Israeli government interference and executive director Eric Benson asks for your prayers for wisdom, boldness and protection.

AFRICA 2004

Storms characterized my July trip to Swaziland. Flying in through, and out of them was surely faith building. The greatest storm is intercession for the children and addicts struggling against the scourge of AIDS.

The big focus in Swaziland is Hawane, where 12 buildings are currently under construction or in renovation. This 60 acre

property will house up to 100 children in the next 16 months.

I spent most of my time on the new Hawane property. I filmed teams from California and Great Britain building the "pack house" and putting a roof on the new academic building.

Bulembu is no longer a priority. The Bulembu complex, at 6.2 square miles with 1200 homes, 2 schools, a hospital, and a factory,

has been parceled to four different ministries due to the remote location. With current staffing and financial limitations, it was too big a project for Teen Challenge to handle alone at this time. TC Swaziland has relinquished leadership of this project to Empower Africa to develop this wonderful opportunity for the Kingdom of God and the nation of Swaziland. Visit www.swazitc.com for continuing developments.

I also ministered in schools and churches of Mbabane during the Africa Mission. Thank you for your prayers as several hundred received Christ.
