Bernie and group,

We so appreciated your ministry in our little church that I just couldn't send a cheque without including a note.

We have had lots of positive feedback from the places you were billeted. Everyone was so excited about the service that it was the main topic of conversation for days. And my family had a memorable Thanksgiving dinner with every one of you.

Your ministry here on one Sunday morning has definitely made a lasting impact. You are in our prayers. Especially Lois, the mother of one of the three boys you talked to, has prayed daily for you. The Lord spoke to her yesterday afternoon about your bus rolling down a hill. She prayed for your protection, to find out later that evening that it had actually happened and your lives were all spared. We are definitely praising the Lord!

Now we are even more in prayer for you. We realize that the enemy would very much like to destroy your ministry. But never fear, our God is greater, and He has his warriors at Parkland joining in the battle for you.

We are looking forward to news of remarkable recovery for those injured. Also, for signs and wonders following your ministry.

Thank you again for visiting our assembly. We hope that we touched you with a small percentage of what you gave to us.

God Bless You,
Sharolyn Sanchez
